1. THE GENERAL INTRODUCTION TO THE PRACTICE ENTERPRISE METHOD

Dear students,

MPEET

This Handbook will help guide you through all the different departments in a Practice Enterprise (will also be referred to as PE) and will assist you in the different tasks and give you tips.

Try out your ideas and learn how to become a successful young entrepreneur. At the same time, do not forget to care about your colleagues and make the PE classroom a fun and safe space for everyone.

In the PE class – it is the you the students who are your own bosses now. The main aim is to focus on the learning-by-doing and trial-and-error are the best way to learn!

Enjoy it!

Under the guidance of a teacher, students create their Practice Enterprises from creating a product, production and distribution to marketing, sales, human resources, accounting/finance and web design.

There is no actual transfer of real goods and money but the trade transactions and financial exchanges take place for real: orders are made, invoices issued and payments transferred, financial records maintained, including information about creditors, debtors etc.

The names are different in each country (ex. Practice Firm, Training Firm, Virtual Enterprise), as well as their translations (ex. Entreprise d'entraînement, Übungsfirma, Empresa Simulada), however the way of learning remains the same.

The different sections represent the different departments of a business such as reception, purchasing, human resources, operations and marketing.

The PE approach emphasizes learning in four key areas applying the learning-by-doing methodology. It encourages cooperation, responsibility for own work and the experience is realistic and reflective. Students experience the consequences of their decisions and apply that learning to future challenges.

A Practice Enterprise is a student-run company that works like a real business. It carries out a real enterprise's business procedures, products and services. A Practice Enterprise is like a real company in its form, organisation and functions.

Net Income/Profit revenues minus expenses.					
Net Worth the total value of a business.					
Product	something produced or manufactured to be sold; a good.				
Profit Margin	the ratio of profit divided by revenue displayed as a percentage.				
Revenuethe entire amount of income before expenses are subtracted.					
Sales Prospect a potential customer.					
Service work done for pay that benefits another.					
Supplier	an organization that provides supplies to a business.				
Target Market	a specific group of customers at which a company aims its products and				

1.2. Company Philosophy (Based on Inspire Principles)

In order to have a trusting and safe working atmosphere in a Practice Enterprise and to make everyone feel comfortable we all need to follow the INSPIRE strategies. INSPIRE program with its seven strategies aims to:

- Create a safe, stable and caring environment and relationship with other people for all children and adolescents.
- Work with parents, teachers, social workers and all adults to create a peaceful future for generations to come.
- Stop all kinds of violence against boys and girls.

Recommendations:

INSPIRE Strategy	Target	Actions, tasks, examples
Laws that protect children and young people from violence	Know the law: UN Conventions on the Rights of the Children National rights for children Law of one's own school	 A PE has rules to follow which are based on non-violent, safe and caring principles – these are hung up in the classroom for you to see. The UN children's rights should be hung up in a clearly visible place in the PE. Get to know the school laws. Cooperate with the student council.
Standards and values	Develop and maintain standards and PE culture, building and promoting non-violent, respectful and positive relationships.	 Respect others in their opinions and ideas. PE functions on the basis of cooperation, valuing relationships, communication and mutual respect. There is inherent gender, culture and religion equality and everyone receives and equal chance to express their opinions and to work in a positive environment. Develop joint agreement of PE rules and also how these are maintained. Make sure that PE rues will make you feel comfortable and safe, e.g. through good behaviour, communication, good cooperation and community spirit. The rules should be signed by all employees of the PE and published in a clearly visible manner in the PE room.

Project No.: 2018-1-LT01-KA202-046977

Safe environment	PE employees feel safe from physical and mental abuse and work in a	Design your workplace and the room in a nice way, observe the guidelines of occupational health and safety.
	positive and pleasant	Friendly workplaces for employees, creating an atmosphere of cooperation and teamwork
	environment.	This atmosphere can be created by student seminars with social workers, in which their own desires and conceptions are compiled. This also teaches you to respect the wishes and ideas of other employees.
Parental support and childcare facilities	The main objective: Good and trusting communication with the	You, parents and teachers create a safe, productive and engaging environment within the PE classroom
	parents and other caregivers, e.g. social	Regularly present the PE work to your parents: the work and the results. These are celebrated together.
	workers, should help to support the PE.	Possibilities: Open PE Day, joint activities, design materials, information flyers or campaigns celebrations on specific occasions. An information day or evening can be prepared together
Responsible personal finance management	Learn about economic processes and implementing expectations	The PE environment encourages learning about finance, trade and helps you to orientat yourself in the world of economic knowledge that can be used in personal life as well.
	of employees at the workplace and in the company.	Writing job descriptions for PE workplaces, conducting job interviews, visiting banks an companies, organising participation in PE trade fairs, compiling catalogues and advertisin materials, presenting and discussing business ideas, exchanging ideas with other PE, e.g. i video conferences.
		Which tasks are there in your company? E.g. personnel department, warehouse, sales accounting design the departments e.g. with posters and visualize the respective tasks.
		Where can you get information about the economic and business context? E.g. visit you mentoring company, invite a representative of a bank or financial institution to learn more about income and economic processes.
Help and support	Children and young people receive help to discover their strengths and talents	Parents are involved in the cooperation of the PE and are invited to follow your progress exhibitions, workshops and different celebrations.
	and promote them.	Social workers have special programs to discover strengths and talents, and local clubs ca help promote these talents.

•		Discuss regularly in your PE how you can improve your work: What does the individual need to be able to work well?
		Design simple questionnaires to give constructive feedback to the trainer and the PE.
		How can the results be communicated and improvements implemented together?
Education and life skills	Strategy "learning by trial- and-error", with	Trial-and-error is the best way to learn and get experience from others.
(Ability to shape one's life)	constructive criticism. Building up self-confidence,	Innovation, creative work and individual approach to highlight the talents of each and every one of you is encouraged.
	trusting people with whom an individual way can be found and designed.	Looking for the solution to problems, constructively criticizing employees, helping to improve mistakes, regular feedback, encouraging employee discussions.
		PE encourages non-violence and respect. Good stories are highlighted and visualized.
		How do you deal with mistakes? Who takes over which tasks if a department cannot be filled? Are you able to express constructive criticism? Are you punctual and reliable? How do you deal with emotions? How do you act in critical situations?
		The company philosophy is a creative process for you – you students establish it yourselves and see what really is important and valuable. Once again – all based on mutual respect, non-violence and understanding.

It is very important for the concept of practice enterprises to use the INSPIRE strategies as a basis for cooperation.

If you want to discover more, follow these links:

2. KNOW YOUR EMPLOYEES AND COMPANY

2.1. Benefits of knowing yourself and your partners

You are going to participate in a Practice Enterprise. It is very important to know each other and yourself. Why? It can help solve the problems that arise, deal with different issues and keep creatively working together. Creating a safe, stable and caring environment and relationships with other people for all children and adolescents is very important. Work with parents, teachers, social workers and all adults to create a safe stable future for generations to come.

Knowing yourself better gives you a lot of benefits.

MPEET

- Better decision-making. You can make better choices about everything, from small decisions to big decisions.
- Self-control. When you know yourself, you understand what motivates you to resist bad habits and develop good ones. You'll have the insight to know which values and goals activate your willpower.
- Resistance to social pressure. When you are grounded in your values and preferences, you are less likely to say "yes" when you want to say "no."
- Tolerance and understanding of others. Your awareness of your own difficulties and struggles can help you empathize with others. Self-awareness if important for tolerance of others.
- While discussing with other students and teachers, and sharing your discoveries about yourself, you will find out how similar and how different we can be. Differences make our world more interesting, so let's get to know each other.

2.2. Classroom rules and agreements

While working in the PE, everyone meets different challenges and must deal with his or her own personality, environment and maintain positive relationships with others. It is necessary to have some rules, which everyone agrees to be important.

Here is an example of a set of rules of a PE:

MPEE

 I leave the room clean I save the electricity I finish the task I am helpful and cooperative 	Rules for Environment Protection	Rules for Self-respect	Rules for Relationships
	I save the electricityI use materials only if I really	I finish the taskI have my goals	

Maybe you would like to add some rules to make your Practice Enterprise and working together more effective?

What if someone in your Practice Enterprise does not follow the rules?

What kind of consequences can be expected?

2.3. Questions about you

Answer **questions about you**. Discuss the answers with other students and your teacher. **Read these statements. Think if they are true about you and tick the right box.**

Statements	never	sometimes	often	always
I am aware of things that may distract me.				
I can ignore the things that distract me.				
I can think of my way to manage my distractions.				
I can quickly settle back into learning after an interruption.				
I recognize that learning can sometimes be a struggle.				
I can stay focused and keep going even if I find things				
challenging.				
I can learn from my mistakes.				
I can identify the mistakes I have made.				
I can ask people to help me learn from my mistakes.				
I can change my plans if I need to.				
I can bring the correct equipment to the right lesson.				
I can get to the right place at the right time.				
I can plan the next steps I might need to take in my learning.				
I can perform math calculations and work with geometric				
figures, sizes and measurements.				
I can identify some useful computer programmes and use them.				
I can use the Internet and the Email.				
I can identify and use tools and devices for computers -				
printers, scanners.				

		-	
I can respect other people's ideas.			
I am able to make compromises.			
I can share my ideas.			
I can encourage other people.			
I can take an active role within a group.			
I am curious about things and people.			
I can practice a question in my head before asking it.			
I listen carefully so that I can ask relevant questions.			
I am not afraid of not knowing.			
I can show someone I am listening by looking at them.			
I can pay attention to people.			
I can answer questions on what I have been listening to.			
I can take turns to speak.			
I can be relied upon.			
People can trust me.			
I can be independent.			
I can get straight on with what I have been asked to do.			
I am happy to take risks in my learning.			
I can use my imagination by letting my mind explore ideas.			
I can come up with new ideas.			
		-	-

Some more questions for knowing yourself and your friends better. Answer, share and discuss.

What do you like to do in your free time?
Which classes do you prefer and why?
Do you have a role model? Who is he or she?
Describe your favourite teacher.
What types of things do you do, or would you do in your favourite class?
How do you organize your room/ locker/backpack?
Do you get good grades in school? Do you think you could improve? Explain.
If you had a choice not to come to school, would you come? Why/ Why not? Explain.
What sports or activities have you participated in?
What activity do you plan to join in this school or at the youth club?
What are your greatest talents?
If your teacher needed your help to do something, what would it be?
Which do you like more - group work or individual work? Explain.
If you could have a superpower, what would it be. Why?

MPEET

3. COMPETENCIES BASED TRAINING IN PE

3.1. IDEAS AND OPPORTUNITIES - SET UP/CHANGING OF PE ACTIVITIES

This section answers the question - how to create PE and register at the national Central Office.

3.1.1. PE product, type, name, contact and logo

In order to start your PE, you have to decide:

- The product you want to develop (manufacturing, trade or services).
- Type of your PE (Individual enterprise, Ltd., Public limited company or other type).
- Name of company, helping to identify the PE.
- The PE Logo, which is intended to represent the Enterprise and its activities.
- The contacts preparation.

Recommendations:

MPEET

The Name has to be easy to pronounce, straightforward, catchy, well representing the PE;

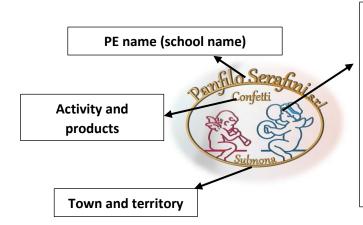

Has to match the official country rules for the symbolic name of companies and local language rules.

Take into consideration your own wishes, local PE network existing activities.

Logo is a small image – a picture, drawing or a symbol that identifies the Enterprise. The PE logo should be clearly and easily recognizable and give a comprehensive idea of the PE. It is put on all the Enterprise documents together with necessary details – Enterprise name, address, phone/fax number and more.

PE email is the main communication tool. PE email has to be easily recognizable for the other contacts, for example in this simple form: pename@gmail.com

Two angels playing music.

<u>Angels</u>: from the name "SERAFINI"- in Italian the word "serafini" indicates a category of angels, the "SERAPHIM" angels;

<u>Playing music</u>: they are celebrating. "Confetti" are traditional candies used in celebrations and parties, weddings, baptisms, birthday parties, graduation parties, ... In our tradition, "confetti" are connected to happy and joyful events.

https://www.microsoft.com/en-us/p/logo-maker-logo-creator-generatordesigner/9pmgwlp0vpsc?activetab=pivot:overviewtab

3.1.2. A PE Catalogue and a price list

MPEE

The PE Product Catalogue is a detailed list of all the goods, products and services offered by an enterprise. At the end of catalogue, the price list has to be attached. Product catalogue contains:

- All the data and details related to the PE (logo, name, address, contact: phone number, email address, website, webshop...).
- PE Products (product images, descriptions, specifications, reference, sale prices, sale units, VAT%...).
- Sales terms and conditions, bank details.

Recommendations:

The PE product catalogue should be constantly updated, usually every year.

When the PE catalogue is ready, it is useful to make it known to other PEs, sending it as a .pdf attachment to an email.

In case of international commerce, the PE catalogue should be bilingual at least (national language and English).

Special product catalog could be prepared for special occasions, such us: PE Fair, Easter, New Year, etc.

Price list is a document containing the names of all the goods, products and services offered by an enterprise. It also contains the related sale prices.

The PE price list is very useful as a reference both for the PE and customers. It could be prepared using MS Word or MS Excel.

The PE price list should be constantly updated.

You have to consider real product prices (products' prices have to be close to real prices).

It is important to have original design and good quality (important at trade fairs or other kinds of competitions).

Please select clear and simple structure, all required information (name, year, logo, contacts) has to be in the catalogue.

Create empty products' order sheet for customers.

For the routine trade between PEs it is more useful to have an online version.

Catalogue Example:

3.1.3. Registration at the national Central Office of PEs

Work in a PE is only possible if it is part of a network of PEs, so that a market situation can be simulated. Additionally, it is imperative that the national CO simulates the most important authorities. When the PE is ready to trade with other Practice Enterprises, it has to register at the national Central Office. You should contact the CO in your country, asking about registration procedures, documentation needed.

The main documents:

MPEET

- Preparation of PE documents for registration.
- Official forms for Registration at CO
- Official forms for taxpayer, value added taxpayer, etc.
- Official forms to open bank accounts.
- Other templates/forms.
- Software.

Recommendations:

The CO team is composed of highly trained and experienced professionals: lawyers, business and economics experts – partners. They can provide advice on how to register all types of companies in a country, how to register a logo in the State Patent Bureau, how to open a bank account or to get credit for the business.

CO functions can vary in different countries and may be some of the following: Registry Agency, Tax Office, State Social Insurance, Post Office, Customs, and other authorities.

It is important to open a bank account. Bank accounts are means to dispose of monetary funds and to handle a variety of the company's financial matters.

View information on the CO website and contact them. Do not be afraid to write emails to the Central Office and ask questions. Don't forget to introduce yourself (as an employee of the company).

Practice Enterprise trainees have to know what the national CO is and what kind of services they provide. All PE Central Offices contacts in the world can be found on the website of the Coordination Centre of the international Practice Enterprise network: <u>https://www.penworldwide.org/</u>

Keywords for IDEAS AND OPPORTUNITIES - SET UP/CHANGING OF PE ACTIVITIES:

Practice Enterprise (PE)	Company registration
Company type	Company logo
Company activity	Company name
Company contacts	Company departments
Company director	Head of departments
Employees	Registry Agency
Product	Tax Office
Catalogue	State Social Insurance
Website	Post Office
Price list	Customs
Central Office	State Patent Bureau
Bank	Bank account
Credit	Taxes for PE registration
Taxpayer	Value added taxpayer

Self – check questions:

MPEET

Is your PE name modern and well developed – representing your business?
Why did you choose this type of company?
Do you know where to register your PE?
Why does you PE have to create a LOGO?
Do you know how to register your PE at a national CO?
Do you know your PE contact information: email, post address and other contacts?
Which components are important in the catalogue?
Do you know the CO functions?
What do you need to open a bank account for?

3.2. RESOURCES – PREPARATION OF WORK IN A PE

To follow all inside procedures, prepare company documents and be ready for the trade with other Practice Enterprises, there are documents, templates, forms and sheets used in different PE departments and offices presented in this section.

3.2.1. Front office documents

The Front office performs the task of connecting the PE with the external world – national and international -PEs. The Front Office staff manage the communication between the PE office departments and the outside.

They are responsible for:

MPEE

- Switchboard management Commitments Agenda
- Incoming / outgoing documents (fax / mail / emails)

Recommendations:

If the staff requested by a phone call is not present, the details of the call should be written down on a **Commitments Agenda** for future action. This could be a **paper register** or a **....docx file** (MS Word) or an. xl **file** (MS Excel). Every call should have the following details: date, PE – person calling, phone /fax nr, reason –subject, internal office – staff, any notes, person who received the call.

It is mandatory to keep track and copy of every PE document and activity. All paper and electronic mail must be registered and stored for future reference. The **PROTOCOL REGISTER** can be a paper register or it can be prepared on an .xls (Excel) file or on a ..docx (Word) file. It is divided into two parts, the first one for INCOMING documents, the second one for OUTGOING mail.

Nr	Date	From PE	Tel. Fax	Reason	Internal	Notes	Receiver
		Person	email	Subject	Office/Staff	(if	
						needed)

3.2.2. Human resources office documents

The Human Resources Department manages the PE staff and deals with various aspects of employment: recruiting, hiring, organization, working hours, payment and more. They collect documents and record information about staff, organizing and storing all employees' files.

Main documents:

- Curriculum Vitae.
- Hiring letter.

MPEET

- Entry/Exit signatures sheet template.
- Working hours on a monthly basis.
- Minutes of Staff meeting

Recommendations:

In the startup phase the PE staff must be hired so they complete a form, the CV, providing their data. Students could be invited to "invent" some of their own details, for example in the fields of Education, Skills or Previous Experience. Of course, if some of the requested details cannot be provided, the related entries should be removed.

Europass CV template is a standard Curriculum Vitae format created by the European Union and valid across all EU countries. The Europass CV template was designed with adults in mind; it can be modified and simplified according to individual needs. This official template is downloadable at <u>https://europass.cedefop.europa.eu/</u>

To detect the time of entry and exit of every person working in the PE a simple template, for example an .xls file (MS Excel), can be prepared with the alphabetical list of the names of all the PE staff. An Entry / Exit paper register can be used instead. All sheets are stored and, at the end of each month, they are collected and used to calculate the working hours and then salary on a monthly basis for employees.

The document for working hours calculation can be a very simple sheet (a .docx file). It contains a summary of the working hours on a monthly basis for each employee. It is filled in at the end of each working month. Based on the total number of working hours, the individual monthly salary is then calculated.

Minutes of Staff Meetings. Generally, the PE Staff has a meeting once a month to discuss general problems and take specific decisions, for example about videoconferencing, marketing campaigns or participation at a Fair. At the end of the meeting, a member of the staff writes down the main points and the decisions made.

Example of a hiring letter

A PE hiring letter is a job offer letter from the PE indicating an agreement between the employer – the PE, and the student/employee. It contains information and details regarding employment for the person being hired. **PE logo** PE name, address, Phone nr and other details To (hired *person's name, address, etc...*) Place and date Dear XY, After carefully examining your CV, our PE would like to offer you a position in the (Marketing, Purchase,) Office, starting on (date). Expected hours of work are (days of week and hours of work). You will be paid on a (weekly, monthly) basis. Please indicate your agreement with these terms and accept this offer by signing and dating this agreement on or before (date). Sincerely, (Signature) The PE Managing Director

Example of Entry/Exit signatures sheet template

	Surname and first name	Entry time	Exit time	Date	Signature
1	Ardini Sergio	10.25	11.25	07.11.2019	
2	Cerini Adele	10.25	11.25	07.11.2019	
3	Fantini Gianna	Absent	Absent	07.11.2019	
4					

Example of Working hours and salary on a monthly basis

	Fiscal Year							
	Surname and first name	Working hours	Salary per month					
		per month	in Euros					
1	Ardini Sergio	30	450.00					
2	Cerini Adele	25	375.00					
3	Fantini Gianna	22	330.00					
4								

NB. The salary calculation service is carried out or by a specialized PE in the national PE network or by the National Central Office. The payment cheques are prepared by the Staff in the Human Resources office.

Example of Staff meeting minutes

IMPEET

	PE name, address, Phone number and other details
Meeting nr X Date: XX/XX/XX, time Present: Absent:	: XX:xx Place: PE Meeting Room
3. New PE websi	mpaign for Carnival Period te at the International Fair in Italy

If you want to discover more, follow these links to create a EUROPASS CV:

https://europass.cedefop.europa.eu/

3.2.3. Marketing office documents

The Marketing Office is in charge of preparing the PE catalogue and all advertising materials. These activities allow the PE products to be known to the customers and the wide public. Main documents:

- Customers Databases national and international -provide an alphabetical list of PEs.
- Advertisement: flyers, leaflets, catalogues, spots, commercials, video, radio ads, etc.
- PE website, webcatalogue, webshop, social media channels (Facebook, Instagram etc.).
- Agreements

Recommendations:

MPEET

NATIONAL PES: Usually a list of national PEs can be found on the national database system website. The list contains all the details (name, address, email address, phone and fax numbers, VAT number, products sold, website or webshop if available, working times, etc.,) about PEs operating. These can also be found in the international listing.

FOREIGN PEs: A list of PEs that work internationally is accessible through the login from the national database system. It is called Clearing Center Client and offers complete and comprehensive information about PEs from all over the world in the worldwide Practice Enterprise network.

Of course, each enterprise can create its **own Databases**. A very simple way is to use .xls files (Excel sheet), using a sheet per letter of the alphabet: page A, page B, etc.

The flyers, catalogues and leaflets are forms of paper advertisement and they can be in print form. They can be printed in different paper format and different MS programs can be used. A very simple program is "MS Publisher" - .pub files. It is very simple to use and offers lots of different templates.

Other forms of advertisement are in **digital format**: videos, spots, commercials and ads. They are not very long- generally 20-30 seconds to 1 minute. They can be prepared in different ways, from pictures to cartoons to videos and more. You can use programmes such as MS PowerPoint and save the project as an MP4 video project. Interesting tools con be found on the Internet and used to make spots in cartoon format, for example Powtoon. The PE students use video editing programs, from very simple ones - for example Windows Movie Maker – to more complex ones – such as Proshow Producer to edit their videos.

Once leaflets and files have been transformed into .pdf files, you can **send as attachments** to emails to Customer PEs. Advertising flyers and leaflets can be used on lots of occasions: at the opening / reopening of PE project, when a PE is going to launch a discount campaign – on Black Friday, for example-, on special celebrations – Halloween, Thanksgiving, Christmas, St Valentine's Day, Father's Day, etc.

The Internet offers powerful tools to make PE activities and projects known. In real life, real enterprises take great care of their **websites / webshops/ Facebook page** because they play an essential part in their business. For this reason, it is important for PEs to have their own website/webshop/Facebook page.

Some sites offer **free and easy to use templates**, so building a PE website is not so difficult. Ready-made templates do not require special or wide computer programming skills. Some interesting templates can be found at www.wix.com or www.weebly.com or **www.wordpress.com** or **www.altervista.org**. They offer not only free templates but free hosting for the PE website as well.

It could be interesting to have mutual business agreements signed with other PEs in order to expand business and enhance activities.

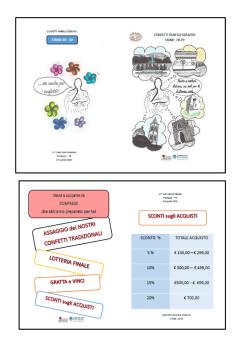

Example of LIST OF NATIONAL PEs

Example of leaflets

These leaflets were made on the occasion of the PE Fair. First the students prepared drawings and pictures; then they scanned them and put them on a "MS Publisher" template. First .pub files were prepared; then they were transformed into .pdf files and printed.

Enterprise 1 logo Enterprise 2 logo Name Name Address Address Phone number Phone number Fax number Fax number email address email address Website - webshop (if available) Website - webshop (if available) VAT number VAT number Mutual Commercial Agreement between *Enterprise 1* and *Enterprise 2*. Date.....

This Agreement is made effective as of ______, by and between *Practice Enterprise 1* and

Practice Enterprise 2.

The aim of this Commercial Agreement is to develop and enhance the collaboration between the two enterprises.

The two enterprises agree on the following:

- 1- they will place (1/2/3 reciprocal order/s);
- 2- the orders will be placed every (*week, fifteen days, month*);
- 3- the total amount of each order will be higher than *X* euros;
- 4-

Example of spots can be found here: https://vimeo.com/342481493, https://vimeo.com/344256455,

https://www.youtube.com/watch?v=YXFdQ2ifZHA , https://www.youtube.com/watch?v=d4vbh_s2oHc

Example and ideas can be found at <u>www.icserdistefano.altervista.org</u> – and at <u>www.catalogoserafini.weebly.com</u>, which is a web catalogue

Students at Confetti Panfilo Serafini PE prepared two webshops, an Italian one at <u>www.serafiniconfetti.altervista.org</u> and an English one at <u>www.serafinicandies.altervista.org</u>.

3.2.4. Purchasing department documents

The purchase department is established when a company needs particular stock, materials, furniture, computers, electronics or clerical items as well as items and services required for the staff. These are called *functional purchases* as they concern the specific needs of the PE. Purchases can be *non-functional* when items not strictly related to the PE and its activity are purchased. For example, a computer is considered a functional purchase; a premium holiday can be considered a non-functional purchase.

Main documents:

• Purchase order.

MPEET

• Issued order list.

Recommendations:

Out of stock products: When the warehouse staff report that some of the products are out of stock or under the minimum stock limit, it is necessary to buy them from the PE suppliers.

Generally, the purchasing operations are done online. The National Central Office website offers pages, forms and lists of supplier PEs to have the operations completed.

PEs can also use their own "Purchase Order" instead. After filling it in with all the right details, they can send it as an attachment to an email addressed to the supplier PE based at the Central Office.

Purchase orders have numbers, so every order should be registered and listed for future reference. An .xls file (MS Excel) or a table based ondocx file (MS Word) can be prepared.

The present PURCHASE ORDER template can be used to order any kind of product. It is usually sent as an attachment to an email.

3.2.5. Sales department documents

The staff in the Sales Department perform the tasks of processing the purchase orders received by other PEs.

Main documents:

MPEE

- Received order List
- Order confirmation
- Delivery note
- Invoice

Recommendations:

Once the order has been received and the ordered products availability in the Warehouse Department has been checked, an Order Confirmation is sent to the customer PE. An .xls file (MS Excel) or adocx file can be useful to prepare an Order Confirmation template.

A **Delivery Note** is a document accompanying the goods being shipped. It is a list containing information about the goods delivered – external aspect, weight, number, ... - if it is the case. For example, in the case of a Travel Agency PE, the Delivery Note does not contain this kind of description. Usually, a copy of the Note, signed by the buyer PE, is returned to the seller PE as a proof of delivery.

An invoice is a document issued by the seller PE to the buyer PE. It is a bill. It contains a list of the products, goods or services provided by the seller and the statement of the sum due for these. An invoice is sent by the seller PE after the goods have been shipped to the buyer PE for payment. It is usually sent as a .pdf attachment to an email.

3.2.6. Warehouse department documents

The Warehouse Department checks the stock of products and updates the list and quantity of products available.

Main documents:

MPEET

- Printout stock template.
- Storage card template / loading.
- Storage card template/ unloading.

Recommendations:

The Printout Stock is the list of all the stocks, that is the goods and the products present and available for sale in the Warehouse Department. For each individual item in the catalogue, the PE sets the minimum level of stock, that is a minimum number of pieces of that item. If a single item is at the minimum stock level or below, it is necessary to purchase from the supplier PE a number of pieces to restore the level. To avoid the problem of items out of stocks, it is essential to know the exact number of available units for each of the items in the PE catalogue. This information is found on the document called "Printout stock".

UNLOADING PRODUCTS FROM WAREHOUSE. Every time a sale is completed, the items sold must be downloaded from the warehouse. To do this, the number of pieces sold must be subtracted from the number of pieces in stock.

LOADING OF PRODUCTS IN STOCK Once the items are at or below the minimum stock level and orders by the Purchase Department to the supplier PE have been delivered to the Warehouse Department, it is necessary to load them on a document called "Storage card". The card is a list of the items purchased by the PE from time to time. The number of the items purchased must be written down on the card after delivery. This operation allows the staff to always have the warehouse situation under control.

Printout stock template

	Reference	Product	Minimum level /pieces	Pieces in stock	Supplier PE	Action required

3.2.7. Treasury office documents

The staff in the Treasury Office check and note down all the income and expenses in the current account of the PE.

Main documents:

• Current Account Book / Bank

Recommendations:

✓ In the **Current Account Book** all the items – income and expenses of the PE – are noted down. It can be a special paper register or an Excel file. All PEs have their own current accounts at the Central Office Bank; this is why most of them do not fill in their Current Account Book. They check the situation of their current account by connecting online with the National Central Office which provides the bank service.

Current Account Book template

Date	Number	Description	+	-	Balance

3.2.8. Accounting Office

The staff in the Accounting Office perform the task of checking the regular payment of invoices issued and received, the payment of utilities and the general situation of the PE current account.

Main documents:

- Schedule management: customers.
- Schedule management: suppliers.
- Letter of reminder/ Payment reminder

Recommendations:

Schedule management - customers: It is a document that allows and helps PEs monitor the deadlines for the payment of bills and invoices due by customers. On the Internet different .xls (MS Excel) templates can be found, downloaded and adapted. This template is a ..docx (MS word) file. It is prepared on a monthly basis.

Schedule management - suppliers: It is a document that allows and helps PEs monitoring the deadlines for the payment of bills and invoices due to supplier PEs. Templates can be found on the Internet as well

Letter of reminder or Payment reminder: a letter or note sent to customers to prompt them to pay overdue invoices.

NOVEMBER 20XX

Self – check questions:

- Do you think these documents are clear, simple and easy to use?
- Can you describe the purpose of these documents?
- Do you think they are useful for your PE activities?
- Are the documents helpful?
- Have you had any difficulties in using them?
 - Do you know which documents should be used in which Department/Office?

3.3. INTO ACTION - LEARNING-BY-DOING IN A PRACTICE ENTERPRISE

In this section you will find all needed information to understand how documents are functioning within the company, how departments within the company are interrelated and what the company processes in the following departments and offices are: Accounting department, Human resources office, Marketing office, Purchasing office, Sales office, Front office, Treasury office, Warehouse office.

Recommendations:

MPEET

The PE tools help students through the learning-by-doing method, often practicing topics not yet developed in the theoretical classroom.

- For each work place there is a job description containing:
 - input: what kind of document is coming in and from where/ from whom
 - operational tasks describing what is to be done with the document
 - output showing the results obtained from the operational tasks

The job description belongs to the work place, with a complete rotation within the PE - all students will develop all tasks.

The job description is an operational tool and does not provide contents.

For each Practice Enterprise there are more task lists adapted based on different target group needs.

Advice, links, other ...

The task list is a strategic tool that guarantees the participants' operative independence from the very first moment. When writing the task list, it is necessary to check the compatibility of the logistic aspects of the practice enterprise with the flow documents and used instruments.

This tool has to be adjusted based on any eventual inconvenience met during the work, such as not enough copies for the involved offices, lack of information between offices due to wrong documents flow, etc.

Questionnaire	Recruitment		
Management	Process		

Self – check questions:

- Do these tools have helped you in developing the tasks?
- Have you had difficulties in passing from one job place to another one? Can you explain?
- Are you satisfied with the office organization?
- How is your personal attitude concerning the relationship with the group?
- Have you checked your work quality before sending it out?
- Do you understand the processes in different departments /offices?

4. COMPETENCIES ASSESSMENT

Working in the PE challenges you to think beyond boundaries of the classroom, helping you develop the skills, behavior and confidence necessary for success in the 21st-century. The Practice Enterprise offers a learning environment that helps you ask questions, analyze, evaluate, make plans, conclusions, and ideas leading you to improved competencies.

Assessment in the PE evaluates your knowledge about Practice Enterprise as well as entrepreneurship competencies like creativity, collaboration, problem-solving, innovation and others.

Recommendations:

MPEE

You can evaluate yourselves in 3 competencies areas: Ideas and opportunities; Resources and Into Action. Ask the PE teacher for the **self -evaluation tables** and color or underline the statements which are true about you or which you agree with. It does not matter how many statements you can color at this point in time. All the statements are given to show you what possibilities you will have while working in a PE.

Ideas and opportunities stage competences include spotting opportunities, creativity, vision valuing ideas, ethical and sustainable thinking.

Resources stage competences include: self-awareness and self-efficacy, motivation and perseverance. Financial and economic literacy, mobilizing resources and mobilizing others.

Into Action stage competences self-evaluation include taking the initiative, planning and management.

You can use the Self-assessment tool **when rotating** (changing the department). For feedback collection you can create templates with the questions and use it each time you change the department.

After you participate in the Practice Enterprise activities, change a position several times it is expected that your **knowledge and technical skills** have improved. Here you and your teacher can evaluate your skills in certain thematic areas of the Practice Enterprise. If there are some areas where you find your skills good or excellent it means that you did great. If there are several thematic areas where you haven't improved so far, possibly you would like to practice next year, with the same or other team.

Ask the PE teacher for self -evaluation tables to evaluate your knowledge and technical skills.

Example for feedback collection each time you change the department

Statement	Totally agree	Agree	Neither Agree	Dissagree	Totally disagree
			nor		
			Disagree		
I do my job without support from the					
teacher					
I do not need reminding about my					
responsibilities					
I contribute to teamwork					
I perform my job with accuracy					
l respect the rules					
I get along with other memebers of the PE					
I am flexible to change
